PROFILE

React.js Front-End Developer with over 2 years of experience building responsive and efficient web applications. Proficient in JavaScript, React hooks, state management, and working with RESTful APIs. Experienced in using modern front-end tools and best practices to write clean, maintainable code. Dedicated to collaborating in team environments and continuously improving technical skills.

WORK EXPERIENCE

ThunderLink – Freelancer

OCT 2023 – PRESENT

Front-End Developer

- Developed responsive user interfaces using React.js, JavaScript, and Tailwind CSS for smart device platforms and digital strategy tools.
- Integrated REST APIs to display real-time data for connected devices (e.g., phones, automotive modules) on interactive dashboards..
- Collaborated with designers and back-end developers to turn complex requirements into clean, scalable front-end components.
- Focused on performance optimization, responsive design, and accessibility (WCAG standards).
- Contributed to reusable component libraries and helped maintain code quality through Git and code reviews.
- Gained hands-on experience in Agile development practices using tools like Jira and GitHub.

BR CONCEPTS – Internship

MARCH 2022– SEP 2022

Web Developement

- Developed a client portfolio website using React.js, showcasing business services, contact forms, and dynamic project galleries
- Created a custom dashboard for internal use to manage content updates—built with reusable React components and connected to mock APIs for CRUD operations.
- Implemented features like dynamic routing (React Router), responsive layouts (CSS Grid & Flexbox), and interactive elements (modals, sliders, forms).
- Collaborated with a small team in an Agile workflow, using Git, GitHub, and Trello to manage code and tasks.

CERTIFICATIONS

Frontlines Media– INDIA

MAY 2021 –SEP 2022

- Gained hands-on experience building responsive websites using HTML5, CSS3, JavaScript, and an introduction to React.js.
- Learned core front-end development concepts including component-based architecture, API integration, and modern UI design practices.
